

SAMUEL WARD

Year 13 students will spend this year completing the units below. On top of this students will be working through the process of career progression, considering the options available to them. There will be different opportunities to meet social care professionals so that students can make an informed decision about their next step. As a department we work hard to ensure that students also get a chance to prepare for interview either for a university place, apprenticeship or employer and will support them all the way through this exciting time in their lives.
